

Virtual Exemplification of Charity, Unity and Fraternity Oct 23 2021

Join us for a webinar on Oct 23, 2021 at 9:00 AM PDT.

[Register now!](#)

This exemplification webinar of Charity, Unity and Fraternity will be a virtual presentation and is for anyone statewide who desires to do this ceremony online. Do not register for this event if you will be attending a physical location to observe the ceremony. Grand Knights or Financial Secretaries should forward this invitation to prospective new members and to 1st and 2nd Degree members. Be certain to advise the candidate of your council number and Chapter name as they will not be able to register without it. Also, advise the attending candidates that they will be given a password at the end of the session to provide to the FS as confirmation of attendance. This is for new members and current members advancing to full Knighthood.

To the registrants, this registration link is unique to you and please do not share this with any other person. This prevents duplication under your name. You will receive an acknowledgement immediately after submitting the request that shows an option to check system requirements. You will receive the confirmation of registration response by email. Please retain and use that confirmation for joining on the day of the exemplification. It will have an entry link entitled "Join Webinar" that you must use to enter the session. If you delay registration to the day of the event, you may not be able to attend.

This is a public ceremonial and you are encouraged to have your family view the ceremony. You will be able to share with them a better understanding of what knighthood is about and what is expected of you as a Knight. It is highly recommended that you attend using computer access. If you use phone or shared computer to access the ceremony, you will receive notification 24 hours after the session stating that you did not attend and it will provide instructions on how to confirm your attendance.

After registering, you will receive a confirmation email containing information about joining the webinar.
