

Wheelchair Mission

My Brother Knights.

It has been a long time coming, but it looks like the State is finally coming out of it's COVID induced coma! We are starting to move again, even doing some Wheelchair Sundays the old way with the video, this is good news!

We still encourage Councils that are not able to do the video to do something, anything. I have said many times that "Doing nothing is not an option"

There are close to 139 million people worldwide who are in desperate need of a wheelchair, but have no possible way of obtaining one without our help, 139 million! That is over three times the population of California! Brothers we have the numbers on our side, with over 700 Councils in California, if every Council did something we could make a huge difference, if every Council raised \$1,000.00 we would have over \$700,000 dollars. I realize that there are inactive Councils who will not participate but we need to just average \$1,000.00, right now we are averaging around \$300 or less. We can do better!

Please do not hesitate to contact me with any questions or suggestions, on how you can help.
